

APPLICATION FOR SEMI-PURIFIED WATER FOR IRRIGATION PURPOSES:

GENERAL INFORMATION:

1. The tariff for semi-purified water will be laid down by the Windhoek City Council and adjusted as deemed necessary.
2. Accounts are sent on or about the 25th of each month. If your account has not reached you by the 5th of the following month you should contact the Enquiries Clerk at tel. no: 290 2222.
3. The account must be settled on or before the 15th of each month to avoid penalties and/or additional security deposits.
4. If your premises are vacated a prescribed form for the discontinuation of this service must be filled in as you are liable for any costs up to the time as such form has been received.

Supply of non-potable water by the Council Regulation 69

- 1) The Council may on application made by any consumer and under a special agreement enter into in terms of regulation 68, grant the supply of non-potable water to such consumer.
- 2) Any supply of non-potable water in terms of subregulation (1) shall not be used for domestic purposes which, in the opinion of the Engineer, may give rise to a health hazard and has been specified by the Engineer.
- 3) No warranty, expressed or implied, applies to the purity of non-potable water supplied by the Council or its suitability for the purpose for which the supply of such water was granted.
- 4) The supply of non-potable water by the Council shall, both as to condition and use, be entirely at the risk of the consumer, who shall be responsible to exercise control over the use of such water on the premises by any other persons.
- 5) Where non-potable water supplied by the Council is used for irrigation purposes, the consumer shall-
 - a) ensure that it is applied uniformly over the irrigated areas and in such a way as to prevent the forming of pools; and
 - b) take such steps as may be necessary to prevent any run-off of surplus water from irrigated areas.
- 6) On premises on which non-potable water is used, the consumer shall ensure that –
 - a) every terminal water fitting and every appliance which supplies or uses such water is clearly marked with a weatherproof notice indicating that the water there from is unsuitable for drinking or other domestic purposes; and
 - b) every tap used for the discharge of such water can only be operated by means of a detachable key or handle and which shall be removed from such tap after every use thereof.
- 7) In an area where treated sewage effluent is used, the consumer shall erect weatherproof notices in permanent positions warning that such effluent is not suitable for domestic purposes.
- 8) The consumer shall adhere at all times to any conditions or guidelines with respect to health risks in the use of non-potable water for irrigation purposes as may be laid down by the Ministry of Health and Social Services from time to time.
- 9) If the consumer fails to take any of the steps referred to in subregulations (5)(b), (6), and (7), the Engineer may by written notice require that such steps be taken by the consumer within a specified period and if the consumer fails to comply with such notice, the Engineer may-
 - a) cause such steps to be taken at the consumer's expense; or
 - b) suspend the supply of non-potable water to the premises concerned until the consumer has complied with such notice.
- 10) Every owner of premises supplied with non-potable water by the Council –
 - a) shall take special care that every pipe and fitting linked to the non-potable water system on the premises is properly identified to prevent any cross connection with the potable water system on such premises; and
 - b) shall not, without the approval of the Engineer, extend or alter such non-potable water system or cause it to be extended or altered.
- 11) A person who contravenes any provision of subregulation (10) shall be guilty of an offence and the supply of non-potable water to such premises shall be permanently terminated by the Council.
